PROFILE

With Close to **3 years** of proven proficiency in software development, I bring a wealth of expertise in creating dynamic, user-centric digital solutions. My journey in the tech industry has honed my skills in database administration, back-end development, website design, and a strong command over multiple PHP frameworks. My forte lies in leveraging rigorous testing to elevate user engagement and satisfaction.
My toolkit encompasses Bootstrap, HTML/CSS and JavaScript for client-side operations, while my server-side proficiency extends to PHP, Laravel, Codeigniter, Python, Node.js, javaScript, jQuery & AJAX.

WORK EXPERIENCE

Senior Php Developer

Anicalls Pvt. Ltd.   **July 2023 - Feb 2024**

- Spearheaded the conception and deployment of groundbreaking applications, harnessing state-of-the-art technologies like Php, Node.js, and Laravel, collaborating seamlessly with diverse teams, project managers, and clients to bring innovative visions to life.
- Architected and implemented highly efficient RESTful APIs & WebSocket API solutions in PHP, tailored specifically for mobile applications, elevating interactivity and user engagement to new heights
- Mentored and coached junior developers, instilling best practices and fostering a culture of continuous learning and professional growth within the team.
- Led multifaceted teams in the creation of multiple websites, overseeing end-to-end development, server setup, and configuration on AWS, ensuring optimal performance and scalability.
- Collaborated seamlessly with cross-functional teams to conceptualize, develop, and enhance a diverse array of web-based applications, emphasizing user-centric design, performance optimization, and robust security measures.

Php Developer

Riseup Infotech   **Dec 2021 - June 2023**

- Coordinate the design and implementation of various applications, including collaboration with project managers, and client representative and development teams.
- Developed REST API & WebSocket API in PHP for mobile based applications.
- Maintained clean code by following industry standards and appropriate design patterns for the projects.
- Provide mentoring services to junior developers as needed.
- Worked with a team of developers, to add features, fix bugs and making upgrades to their already existing applications.
- Responsible for web server setup, configuration, and optimization (AWS).
- Collaborated with team members to develop, maintain, and improve web- based applications.

Php Developer

Capitalist Softtech Pvt. Ltd   **Dec 2019 - May 2020**

- Developed wireframes, site maps and content inventories for new website designs.
- Planned website development, converting mockups into usable web presence with HTML, JavaScript, AJAX, and JSON coding.
- Applied emerging technologies to update and maintain site applicability.
- Provided security maintenance and patching on website interface to maintain viability after launch.
- Oversaw back-end development using PHP to maintain website integrity.
